Here were day for weeks, and will do it for months to. pleasant ladies: fireside comforts, delightful come. By the first of January the track will sleeping-rooms, and a travelling home that would have cutered Utah, and by the first of June not do discredit to even San Francisco. Here nost it will all be done, and the rails will be are disposed the clerks and other empolyes of continuous from Sacramento to Now York.

ing on. THE SCENE AT THE END OF THE TRACK. On coming out of the cur in the morning a carrious sight mot our gize, - We were at the headquarters of the commander of the advancing Army of Cilivization. Long lines of fine mule and horse forms with wigons of every description from a light form wagm, to a-"prairie schooner." stool in the open merelow near the camp team. the animals feeling on hay and barloy preparatory to the commencement of the day's work . Trains could be seen in the distance coming up the valley from the westword, with supplies and material for the road, foremen and superintendents of various depart ment of the work were galloping back and forth on horseback receiving or giving orders for the harrying to their work. On one side Cavite and Manila Cigar Depot. Apply to the track stool a movable blacksmill's sliop halted for the day, the blacksmiths busily hammering hway repairing broken tools harness and sa kiler shop in full blast; a thous, house, lately occupied by Mr. Michigh, is ready said unles will break up or wear out a heaplat for immediate occupation, and the Eastern harness in a day. The line of telegraph policy, stretching away to the westward to the limit of vision, came up to the end of the track and there stopped, the wire being carried into the office and connected with the instrument in operation constantly there. Life and bustle and incess int

activity was visible on all sides.

THE VANGUARD. Looking entward up the Humbolds Valley some bull dozen miles we see two bold buttos or bendelands, the termini of two ranges of snow. capped inountains running north and south, Here ! the Hamboldt Valley marrows down to a mere canon, and the point is known as " Bon ware. Gute." At jutervals all along the intervening level grassy yat sy we can see groups of bluechadlaborers the smoke of their camp-fires ourling -a portion of which are now occupied by lazily up in the clear mouning air. On through. Messre, Russett & Co, with large and comthe Gitto and hway up the valley where it hands modious dwelling house and extensive Godowns. abruptly to the northward, through Twelve and on the Praya. Six-Mile Canone, on mountain spars, on level For full Particulars, apply to plains, and along the ever narrowing valley of the Humboldt, these gangs of blue coated; Assistios - haything and "burbarians" wegastl them in San Francisco—the vanguard of civili- A FIRST Rate Granite Godown: Apply at zation and commerce they really are—are plying A BELLE vur House, No. 8. Hollywood the plak and shovel levelling the hills, filling up. Road the beds of mountain torrents, raising embank. ments, and making ready for the coming of the iron horse. Bet veen four Housand five hundred and five thousand Chinamen are thus at work; ten thousand were engaged at once in this work on the Sierra Nevado, where there was more to be done, and progress was necessarily much slower. These Chinese hiborers work on a thorough system, and leverything moves on in perfect order. Each division is under the control of an American foreman, who keeps the time-book of each gang under his command The gangs consist of some thirty men enob, who have a "head man" cleoted by themsulves. The foremen at nightfall gives each "head- the Union Dock Company, Apply to LANDSTEIN & Co. man" an account of the amount of time credited to his gang, and be in turn gives each individual his account. This is done every might. The head in in also buys all the provisions for the gang, pays for all, and at the end of the month remeives the entire pay-330 in gold to each min deducts the charges, and then pays each man his balance. The men generally have from \$20 to \$25 each left after paying all bills at the end of the month. They work, at this season, from daylight to dark, with only an hour intermission at noon, six days in the week, resting,

THE REAR GUARD. Away back, some miles in the rear of the camp train, is the camp of the rear untrd-the men who follow along the line and, fluishethe tf 1215, Hongkong 2nd July, 1868. road completely. These are Uhinese, and their camp is like those of the gange abend, complete in itself. It is unived every day or two. All the conking, washing and mending for the camp is done in it, and each man makes his home in KINSON & Co. Apply to it from one in athis end to another. HOW THE PACIFIC RAILBOAD IS BUILT. The signal is given for the brack layers to

and smoking oplum. Their camps are like

these of anarmy, with tents regularly arranged

setler furnishing the main articles of food.

fornumence work about sanried and the whole camp is in motion at once. The graders are at work for a handred miles about, at intervals, and the grading is always finished some mile in advance of the end of the track. The comp train is run down to the extreme end of the railroad. track and telegraph I no at noon, and again at might. At the distributing deput-now back at Argenti there are frams on trains londed with from, ties, spikes, and other maturials sosoio san be had on the 1st October. emough to build at least 8 to 12 miles of the road all the time, A train of 20 to 3 \ oars, lorded with ties and iron, with a locomofive at [cach end the train being known as a double header" is started down the line at day greak or before. This train arriving at the many tom on the end of the track is specifity unloaded The ties are placed on beavy wagons, drawn by vis, eight, or ten ninles, and carried for ward unc distributed along the line for a mile and a half - that being extent of track which the material on the train suffices to construct and the iron being placed on wagons is curied around the camp train and transported to low platform horse cars, which dirry it out to the end of the truck as it advances. The foremost gang of from the Sierra Nevada, three bundled miles west-ward-on the hed at suitable intervals seven for cash unil. The next take this rails from the cars and place them end to end in line peross the ties. Then one man throws the spikes down by each tie and mother drops the lown, capable of containing 1000 chests or "aplice bars" or clamps which are to be bolted on the sides of the rails at the joints, and the bolts and mata which are to fasten them in

A min on cuch aids drives the spikes into the tres to hold the rail in place, others put ou the splice burs and screw the nots on the belts. The track is time pushed forwards stendily barlly a moment's delay ever occurring. When one iron car is unloaded, it is run back for a few rolls, hoisted off the track long enough for a fresh one to pues forward, then put back on the truck and run hack to the comp train to. receive a new load. At the same ti ate, a wagun with a horizontal wheel in the centre of the bed; on which there is a coil of telegraph wire. is passing stowly along, parellel with the trank and a few feet distant. A gang of men ave putting up posts at the same time, and as fast as the wire is uncoiled it is ourried up on ladders and fastened on the insulators. Thus the telegraph line and railroal are constructed together. The first construction train only brings half the ties -there are 131 to the rail or 2,500 to the mile, when the rould is finished ties follows slowly in the roar, the ties being dropped along at just the right intervals, in their own Bonts, and to receive the same in Above 3 months, and not by Another gung of men follow this train, and storage in first class CRANITE GODOWNS (exceeding six mouths) put the second lot of ties in place, and the on moderate terms. finishers following them in turn level off the track with carth-"surfacing," it is calledraising this tie a little, find that one a little, until the track is level and plain, filling in dirttop of the lies, and the maid is finished. Meantion in the camp train all is going on in like workmanlike order. The telegrapher is sending mesanges V San Francisco; Sacramento, and every intermediate mint, ordering supplies. tools, provisions, etc., telling the conductors on a dozen freight, passengers, or construction trains to go forward, turn back, take the side truck, put on more cars, load on more lies or iron, move forward the Chinese camp, cto; etc. It is at work all the time. The cooks are get moderate., Apply to LAMMERT, ATKINSON & Co. Sting dimer, the clerks making up pay rolls, the Superintendents of Constructions or Rolling

directing the foreman; everybody at is morning a slongh or buyou of the Hum. t had to be drilged, and only half a mile of had been laid when bly James Campbell, intendent of Rolling Stook, and myself d off for the Volcano Springs, on horse We come back at noon to find the bridge of sawn timber completed and a and a half of truck finished since morning. END OF TRACK OF C. P. R. W. ASAR . hading fresh water for the trains and for the upper part of the house ciation returns to the assured of each year at the When I closed my first letter yesterday, I allowed to drink clough water at any time the by the undersigned.

eamp train was in motion, coming down to end of the track, the water wagons were animals the men, horses, and mules are not | un Paddar's Wharf, at present occupied connected; and the " End of the Track " Sta the company at home, yet occasionally " mov. is thus the Pacific Railroad is being built.
